

Tidewater Orchid Society Library

- Allison, Arthur V. **Various Compiled Articles by Dr. Allison on Viruses**
1985. 527 species in 89 genera. 779 pages
- Ames, O. & Correll **Orchids of Guatemala and Belize**
- AOS **An Orchidist's Glossary 1974**
A profusely illustrated "word book" on orchid names, orchid terminology and orchid personages, with pronunciation guide, it will serve the orchid hobbyist, novice and pro alike, to understand his reading and improve mastery of communicating with other orchid friends.
- AOS **Handbook on Judging & Exhibition** 11th edition
- AOS **Handbook on Pests and Diseases**, 1986
How to recognize and control scale, blackrot, thrips, virus, leaf burn, etc. 112 pages
- AOS **Orchid Pests and Diseases** 1995 revised edition
Packed with practical advice on insect and noninsect, bacterial and fungal diseases, orchid viruses, physiological disorders along with suggested cures and treatments. New features include a chapter on the natural control of insects and mites, a glossary of more than 95 terms and list of centers that identify orchid ailments. 118 pages
- AOS **Growing Orchids (a Cultural Handbook)**, 1993 revised
- AOS **Orchid Culture Handbook**, 1986
- Baker, Margaret and Charles **Orchid Species Culture & Dendrobiums**
1996. The Old World genus Dendrobium, providing the most comprehensive source of cultural information. 1200 species are discussed with information on habitat, climate, descriptions and more. A section on general orchid culture, a detailed appendix on plant nutrients, and pests and disease. 852 pages
- Banocci, Phyllis **Light Garden Construction Do It Yourself Manuel**
- Bechtel, Cribb and Launer **The Manuel of Cultivated Orchid Species**
1981. Over 1200 orchid species from 217 genera are described in detail with cultural notes on each genus. Generous color photo. A comprehensive work. 444 pages. 720 color photos.
- Birk, Lance A. **The Paphiopedilum Growers Manuel**
Authoritative book; describes every recognized species and covers all aspects of culture including reporting, fertilizing and seedling cultivation. 200 pages
- Black, Peter McKenzie **The Ward Lock Book of Orchid Growing**
- Brooklyn Botanic Garden **The Best Orchids for Indoors**
- Cash, Catherine **The Slipper Orchid**
1991. Survey of all four genera with descriptions, history, & hybridization. 304 pages. 225 photos
- Christenson, Eric **Phalaenopsis, a Monogram** 2000
Keys to the species, thorough descriptions, notes on taxonomy, hybridization, and conservation. This book is an essential addition to the libraries of hobbyists, commercial growers, judges, Societies. 396 pages
- Cribb, Phillip **The Forgotten Orchids of Alexandre Brun**
- Cribb, Phillip/Bailes, Christopher **Hardy Orchids** 1989
Thorough guide to cultivation of cool-growing terrestrial and epiphyte orchids in woodland and bog gardens, shady borders, and in cold frames & cool greenhouses. Emphasis on soils and potting media. 159 pages
- Correll, Donovan S. **Native Orchids of North America**
1978. Timeless information on native orchids. Definitive work on the subject. 400 pages
- Cymbidium Society **The Orchid Advocate**
- Davis, Rosalie & Kawaguchi, Mariko **Rare Orchids**
- Dekle and Kiutert **Orchid Insects, Related Pests and Control**
- Dodson, C.H./Van Der Pijl L. **Orchid Flowers: Their Pollination and Evolution**
1966. Published to commemorate the centenary of appearance of Darwin's classic on the fertilization of orchids by insects. Vast accumulation of significant data and new ideas in this field.
- Dressler & Pollard **The Genus Encyclia in Mexico**
1974. Defines and describes the Encyclia found in Mexico. 152 pages.
- Dunsterville, G.C.K. **Introduction to the World of Orchids**
1964. 102 pages & 40 color plates. A short chapter devoted to natural habitat with emphasis on Venezuela. The rest discusses each of the forty species described in the color plates.

- Dunsterville, G.C.K. and Garay L.A. **Orchid Hunting in the Lost World**
 1988. *The most vivid memories of two of the most beloved figures are compiled into one comprehensive anthology of Bulletin articles spanning nearly thirty years. A tribute to the Dunsterville's and their life long love affair with orchids.* 280 pages
- Dunsterville, G.C.K. and Garay L.A. **Venezuelan Orchids (Illustrated)**
 1976. *Highly recommended to every reader. Deals with one of richest floras in the Western Hemisphere.*
- Escobar, Rodriga R **Native Colombian Orchids:Volume 1 Acaclis-Dryadella**
 41 genera, including *Cattleya, Cycnoches and Dracula* are presented. 140 pages. 166 color photos.
- Escobar, Rodriga R **Native Colombian Orchids:Volume 2 Elleantus-Masdevallia**
 Thirty-three genera are discussed, including *Epidendrum, Gongora, Huntleya & Lepanthes*. C. Luer has written a chapter of historical note, info on important collectors & botanists of Colombian orchids. 141 pages
- Escobar, Rodriga R **Native Colombian Orchids:Volume 3 Maxillaria-Ponthieva**
 C. Dodson reveals mystery behind ecology & pollination of orchids. Twenty-nine genera are featured- *Maxillaria, Mormodes, Odontoglossum, Oncidium, Phragmidipedium & Pleurothallis*. 148 pages.
- Escobar, Rodriga R **Native Colombian Orchids:Volume 4 Porroglossum-Zygosepalum**
Restrepia, epiphytic and terrestrial orchids are included. 188 color photos.
- Fennell, T.A. **Orchids for the Home & Garden**
- Fitch, Charles **All About Orchids 1982**
A comprehensive nontechnical guide devoted to the selection culture and propagation of orchids. Valuable information for those who grow orchids at home.
- Fowlie, J.A. **The Brazilian Cattleyas & Their Color Varieties.** *Description, culture, and photos.*
- Fowlie, J.A. **The Genus Lycaste** *Description and good quality photos of this group.*
- Gallery Books **The Orchid – The Wild Species**
- Garrard, Jeanne **Growing Orchids for Pleasure**
 1966. *Tells simply and brightly everything you need to know to convert your interest in orchids to orchids actually flourishing in your home, garden, or basement.*
- Golding, Jack **Light Garden Primer**
- Gordon, Bob **Beginner's Guide to Growing Phalaenopsis Orchids**
What you need to know to grow Phalaenopsis successfully without a greenhouse. Common problems and explains how to display phalaenopsis. 38 pages 1986
- Gordon, Bob **Culture of the Phalaenopsis Orchid** (2 copies) 190 pages
Includes answers to the questions most often asked by phalaenopsis growers.
- Gupton & Swope **Wild Orchids of the Middle Atlantic States** (2 copies) 1987
Colorful introduction to the wild orchids which are easily interpreted by the non-specialist. 112 pages
- Handbook on Orchid Nomenclature and Registration**, 4th edition: 1976.
Applies the two international codes on plant nomenclature to orchids, providing reference listings on various aspect of orchid nomenclature and registration. Includes listings of all published hybrid generic names with their citations. 150 pages.
- Hansen, Eric **Orchid Fever** (novel) A horticultural tale of love, lust and lunacy.
- Hawkes **Encyclopedia of Cultivated Orchids** 1996
 700 orchid genera with considerable information, clearly compiled and easy to consult. 602 pages
- Hillerman, Fred **Culture Manuel for Aerangis Orchid Growers 1990**
Description of habitats and cultural requirements of the species, how to pollinate & flask. 32 pages
- Holttum **Flora of Malaya, Vol. 1 Orchids** 1980. *Classic book of all know species including work on distribution, hybridization and culture of this group of orchids.*
- Hunt, Francis P. **The Orchid** (3 copies) 207 pages. *Lists 159 species.*
A classic containing magnificent color photographs. One of the best color picture books.
- Japan Orchid Growers Assn. **Quality Stream Cattleyas 800 in Color**
Most of the known species and varieties of Cattleya (and hybrids) in one place. Staggering color photos.
- Kelleher, Jo **Intriguing Masdevalias**
Culture and description of 34 species of Masdevalias, 13 hybrids, 8 draculas and dryadellas.
- Kijima, Takashi **Orchids**
- Koopowitz, H. and Kay H. **Plant Extinction – A Global Crisis 1983**
Authors spell out what we are facing and how you can help. 239 pages

- McQueen, Jim and Barbara **Miniature Orchids 1992.**
Concise introduction aimed at the beginner. 290 species with origin, cultivation, flower color and size, and more. 300 color photos. 192 pages
- Millar, Andree **Orchids of Papua New Guinea**
1978. Entire book filled with color illustration. Milestone in information about orchids in this region.
- Morrison, Mrs. R.D. **Learn to Grow Under Fluorescent Lights**
 Natural History Museum **Orchids**
- Noble, Mary **You Can Grow Cattleya Orchids**(2 copies)
Fully illustrated, focuses on the Cattleya alliance. 144 pages
- Noble, Mary **You Can Grow Orchids** 1987
Adapted to today's gardening enthusiasts interested in orchids, this basic illustrated book may be profitably read by all orchidists. 128 pages
- Noble, Mary **You Can Grow Phalaenopsis Orchids**, 11th edition, 1991
Special techniques and proper growing of this popular genus. 149 pages
- Northern, Rebecca **Miniature Orchids** 1980
This book discusses tiny orchids suitable for the small greenhouse, windowsill collection or fluorescent light. Beautifully illustrated, it provides invaluable information on the habitat, culture, ecology and history of more than 600 miniature species. 190 pages
- Northern, Rebecca **Orchids as Houseplants** 1976
Concise manual on growing orchids in the home; clearly written for practical use by new or experienced hobby orchid growers. 144 pages
- Oplt, J. **Orchids in 56 Plates Colour**
- Orlean, Susan **The Orchid Thief** (novel) A true story of beauty and obsession.
- Pridgeon, Alec **The Illustrated Encyclopedia of Orchids** 1992
Almost 300 genera and more than 1,000 species are described and illustrated that contains chapters on hybridization, cultivation, pests and diseases, conservation and pollination. Encyclopedic reference that is followed by glossary, bibliography, and index. 300 pages. 1000 color photos.
- Rhodehamel, William **A Masdevallia Cultural Guide** 1992 130 pages
Reveals all that you need to know to grow and flower masdevallias in all climates. Appendix with currently recognized species, country of origin. Even if you have one, this is the book you will need for it.
- Rue-Chih, Hsiang **Phalaenopsis-Superior Parentage and Awards**
577 pages. First half of this book presents with color photos of many of the superior Phalaenopsis and description. The second half is much like our "Awards Quarterly" listing and describing flowers awarded since 1959.
- Rentoul, J.N. **Expanding Your Orchid Collection**
- Rentoul, J.N. **The Hybrid Story**
- Rittershausen, Brian & Sara **Orchids, a Care Manuel**
- Rittershausen, W; Oakey, Gill & David; Sutherland, N.
Growing and Displaying Orchids – a Step by Step Guide
- Sander, David **Orchids and Their Cultivation** 1969, 165 pages
Orchid culture for the beginner and more advanced grower. Easy reading with good instructional content.
- Sessler, Gloria Jean **Orchids and How to Grow Them**
- Sheehan, Thomas **Ultimate Orchid**
- Shuttleworth, Zim, & Dillon **Orchids (Golden Guide)**
- Simon, Hilda **The Private Lives of Orchids**
Fascinating world of the orchid family is explored focusing on the physical characteristics and behavior patterns of 90 of its highly individualistic members. 1975
- Stewart, Joyce **Orchids of Kenya**
- Stewart, Joyce **Orchids of Tropical Africa**
1970. General description of distribution, habitat, and culture of orchids in region. 117 pages
- Sweet, Herman R. **The Genus Phalaenopsis** (2 copies)
1980. Exhaustive study of the genus supported by fascinating illustrations. Essential reference book.
- Swinson, Arthur **Frederick Sander: The Orchid King**
The New Phalaenopsis of Taiwan in 1993, Special Edition

- Upton, Walter **Dendrobium Orchids of Australia**
 1989. *This book provides a description, geographic distribution, habitat and cultural information for all Dendrobium species and natural hybrids of Australia. 222 color photos. 237 pages*
- Williams and Williams **Field Guide to Orchids of N. America**
Only complete guide to native North American Orchids. 144 pages
- Williamson, Graham **The Orchids of South Central Africa**
 1977. *First comprehensive account of the orchid flora of this region. Covers fifty genera. Complete with pictures, descriptions. Very easy to read and understand, even though quite technical.*
- Wisler, Gail C. **How to Control Orchid Viruses 1989**
How to identify and diagnose cymbidium mosaic, odontoglossum ringspot and the other major orchid viruses, all in layman's terms. How to achieve a virus-free collection. 128 pages
- Withner, Carl L. **The Cattleyas and Their Relatives Volume 1: The Cattleyas** (2 copies)
 1988. *Bifoliate and unifoliate Cattleya species with 9 color photos. 150pages*
- Withner, Carl L. **Volume 11 The Laelias**
 1990. *Devoted to the laelias and is as complete and definitive as we could hope. 160 pages*
- Withner, Carl L. **Volume 111 Schomburgkia, Sophronitis, & Other S.American Genera 1993**
Thorough discussions and descriptions are provided for Schomburgkia and Sophronitis plus lesser-known genera, such as Isabelia, Loefgrenianthus, Pinelia, Pygmaeorchis and Renata. A fantastic resource.
- Withner, Carl L. **Volume 1V The Bahamian & Caribbean Species 1996**
Bahamian & Caribbean Species. 67 species are treated in Broughtonia Cattleyopsis Domingoa, Encyclia, Laeliopsis, Necogniauxia, Psychilil, Quisqueya and Tetramicra. 156 pages. 82 color photos.
- Withner, Carl L. **Volume V Brassavola, Encyclia, & Other Genera of Mexico & S. America**
70 species in 15 genera, including Brassavola. 246 pages
- Withner, Carl L. **Volume V1 South American Encyclia Species**
- Withner, Carl L. **The Orchids A Scientific Survey 1959**
Comprehensive review of the important source material on various phases of orchidology, making it highly useful reference book for all but the rankest amateur. 648 pages
- Withner, Carl L. **The Orchids Scientific Studies 1974**
Companion volume to the above. Each chapter is a study in an area of orchidology not covered in the previous volume. 604 pages.
- World Wildlife Fund **Book of Orchids**
